Training Parameters

Sector	Agriculture
Sub-Sector	Agriculture Crop Production
Occupation	Floriculture Farming
Country	India
NSQF Level	4
Aligned to NCO/ISCO/ISIC Code	NCO-2015/NIL
Minimum Educational Qualification and Experience	<p>Min. Educational Qualification: 10th Class with 2 years of relevant experience OR 10th grade pass and pursuing continuous schooling OR 8th Class with 3 years of relevant experience OR Previous relevant Qualification of NSQF Level 3 with minimum education as 5th grade pass with 2 Years of relevant experience Min. Age: 18 Years</p>
Pre-Requisite License or Training	NA
Minimum Job Entry Age	18 Years
Last Reviewed On	17/11/2022
Next Review Date	17/11/2025
NSQC Approval Date	17/11/2022
QP Version	3.0
Model Curriculum Creation Date	17/11/2022
Model Curriculum Valid Up to Date	17/11/2025
Model Curriculum Version	2.0
Minimum Duration of the Course	390 Hours
Maximum Duration of the Course	390 Hours

Program Overview

This section summarizes the end objectives of the program along with its duration.

Training Outcomes

At the end of the program, the learner should have acquired the listed knowledge and skills to:

- Describe the process of procuring and storing cut flowers and foliage.
- Demonstrate the process of preparing flowers for creating floral arrangements.
- Demonstrate the process of designing and creating floral arrangements.
- Describe the process of packing and shipping floral arrangements.
- Explain the importance of practising inclusion and gender equality at the workplace.
- Demonstrate various practices to maintain personal hygiene, cleanliness, and safety at the workplace.

Compulsory Modules

The table lists the modules and their duration corresponding to the Compulsory NOS of the QP.

NOS and Module Details	Theory Duration	Practical Duration	On-the-Job Training Duration (Mandatory)	On-the-Job Training Duration (Recommended)	Total Duration
Bridge Module	5:00	0:00	0:00	0:00	5:00
Module 1: Introduction to the role of a Florist	5:00	0:00	0:00	0:00	5:00
AGR/N0706 Procure and store cut flowers and foliage NOS Version-2.0 NSQF Level-4	15:00	40:00	0:00	0:00	55:00
Module 2: Procurement and storage of cut flowers and foliage	15:00	40:00	0:00	0:00	55:00
AGR/N0707 Prepare flowers for creating floral arrangements NOS Version-2.0 NSQF Level-4	10:00	20:00	0:00	0:00	30:00
Module 3: Preparation of flowers for creating floral arrangements	10:00	20:00	0:00	0:00	30:00
AGR/N0708 Design and create floral arrangements NOS Version-2.0	10:00	20:00	0:00	0:00	30:00

NSQF Level-4					
Module 4: Process of designing and creating floral designs	10:00	20:00	0:00	0:00	30:00
AGR/N0709 Pack and ship floral arrangements NOS Version-2.0 NSQF Level-4	10:00	20:00	0:00	0:00	30:00
Module 5: Process of packing and shipping floral arrangements	10:00	20:00	0:00	0:00	30:00

Module 9: Employability Skills	60:00	00:00	0:00	0:00	60:00
Total Duration	120:00	120:00	0:00	0:00	240:00
OJT (Recommended): 150 hours					

Module Details

Module 1: Introduction to the role of a Florist

Bridge Module

Terminal Outcomes:

- State the role and responsibilities of a Florist.

Duration: 5:00	Duration: 0:00
Theory – Key Learning Outcomes	Practical – Key Learning Outcomes
<ul style="list-style-type: none"> • Describe the size and scope of the Agriculture industry and its sub-sectors. • Discuss the role and responsibilities of a Florist. • Identify various employment opportunities for a Florist. 	
Classroom Aids	
Training kit - Trainer guide, Presentations, Whiteboard, Marker, projector, laptop	
Tools, Equipment and Other Requirements	
NA	

Module 2: Procurement and storage of cut flowers and foliage

Mapped to AGR/N0706 v2.0

Terminal Outcomes:

- Describe the process of procuring and storing cut flowers and foliage.
- Demonstrate the process of preparing the storage for storing flowers and foliage.

Duration: 15:00	Duration: 40:00
Theory – Key Learning Outcomes	Practical – Key Learning Outcomes
<ul style="list-style-type: none"> • List different types of cut flowers and foliage to be procured according to the season. • List botanical and common names for a range of flowers and foliage. • List various parameters to be considered while purchasing flowers and foliage. • Describe the basic procurement, inventory and quality management practices. • Explain the safe handling of flowers with allergic properties. • Describe the criteria for sorting and grading flowers and foliage such as stem length, degree of bud opening, damage-free, etc. • Explain the storage requirements for different types of flowers and foliage. • Explain different ways of preserving the freshness of flowers such as using hydration solutions. 	<ul style="list-style-type: none"> • Demonstrate the process of examining the cut flowers and foliage to ensure they are free from pests and disease. • Demonstrate how to carry out air cooling or hydro cooling to remove the field heat of flowers and foliage. • Prepare a sample record of purchase. • Demonstrate the process of applying the necessary treatments in the storage area to remove pests and rodents. • Demonstrate the process of carrying out special treatments on flowers such as pulsing, impregnation, bud opening, etc.
Classroom Aids	
Training kit (Trainer guide, Presentations). Whiteboard, Marker, projector, laptop	
Tools, Equipment and Other Requirements	
Flowers (Loose/cut), Cut greens/ foliage, Secateurs, Knife, Buckets, Sprayer, Flower pin holder, Stapler, Binding wire, Stub wire, Floral foam, Clear adhesive tape, Ribbon Bowls and vases, Baskets, Paints and clear varnish, Paintbrush, and sprayer, Scale, Flower catalogue, sprayer, Scale, Sucrose, Chemical (citric acid, benzoic acid, silver nitrate, Stirrer, Chemical balance (Electronic), Volumetric flask, Measuring cylinder, Beaker (150- & 100-ml volume), Alcohol, Knife	

Module 3: Preparation of flowers for creating floral arrangements

Mapped to ARG/N0707 v2.0

Terminal Outcomes:

- Describe the process of preparing flowers for creating floral arrangements.
- Demonstrate the process of carrying out flower processing.
- Describe various practices for the effective disposal of waste.

Duration: 10:00	Duration: 20:00
Theory – Key Learning Outcomes	Practical – Key Learning Outcomes
<ul style="list-style-type: none"> • Describe various flower processing requirements and practices. • List various tools, equipment and Personal Protective Equipment (PPE) used in flower processing. • Describe the process of conditioning flowers. • Describe processing methods for different varieties of flowers. • Describe the process of preparing different types of hydration solutions for flowers. • Explain the criteria for segregating waste into different categories. • Describe the method of recycling and disposing of different types of waste. 	<ul style="list-style-type: none"> • Demonstrate the process of conditioning flowers. • Show how to cut the flower stem at an appropriate length and degree. • Demonstrate the process of preparing different types of hydration solutions for a variety of flowers. • Show how to hydrate flowers using the appropriate PPE. • Demonstrate the process of recycling and disposing different types of waste.
Classroom Aids	
Training kit (Trainer guide, Presentations). Whiteboard, Marker, projector, laptop	
Tools, Equipment and Other Requirements	
Flower catalogue	

Module 4: Process of designing and creating floral designs

Mapped to AGR/N0708 v2.0

Terminal Outcomes:

- Describe the process of designing and creating floral designs.
- Demonstrate the process of designing and creating floral arrangements.
- Describe the process of preparing bills and processing payments.

Duration: 10:00	Duration: 20:00
Theory – Key Learning Outcomes	Practical – Key Learning Outcomes
<ul style="list-style-type: none"> • Explain the basic principles and elements of floral designs. • List different types of floral arrangements such as bouquet, wreath, corsage, etc. • Describe various practices to prevent flowers and foliage from wilting. • Explain the importance of understanding customer requirements before creating floral designs. • Explain how to customise floral designs, bouquet, and wreath to create new floral designs. • Explain how to plan the size and positioning of a display according to the available space. • List different types of payment methods and the process of using them. • List a variety of flowers and foliage suitable for display and venue decorations. • Explain the importance of protecting floral display and decorations from heat. • Explain the benefits of resource optimisation. 	<ul style="list-style-type: none"> • Demonstrate the process of preparing different types of floral designs and arrangements for store display and venue decoration. • Prepare a sample invoice including the relevant service charges and taxes. • Show how to use various e-payment methods. • Prepare a sample record of sale and payment using the physical register or an appropriate computer application.
Classroom Aids	
Training kit (Trainer guide, Presentations)	
Tools, Equipment and Other Requirements	

Flowers (Loose/cut), Cut greens/ foliage, Secateurs, Knife, Buckets, Sprayer, Flower pin holder, Stapler, Binding wire, Stub wire, Floral foam, Clear adhesive tape, Ribbon Bowls and vases, Baskets, Paints and clear varnish, Paint brush and sprayer, Scale, Sucrose, Chemical (citric acid, benzoic acid, silver nitrate, Stirrer, Chemical balance (Electronic), Volumetric flask, Measuring cylinder Beaker (150 & 100 ml volume), Alcohol, Knife, Needles of different size, Nylon thread, Cellophane paper, Card hard paper, Thread, Container/ foam, Bamboo basket, Foam block, Wood shavings, Fine saw, Fixtures – single bar or split bar, Containers or vases – ceramic, stone, plastic glass, wooden, Earthen pots/ metallic containers, Desiccants – sand and silica gel, Plant press, Blotting/ newspaper sheets, Razor blade, Flower cutter, Forceps, Broomsticks, Thin steel wire, Wooden items made of driftwood, Thermocol, Pale brown foam, Stones of various shapes and colour, Glass containers, Glass adhesive or synthetic resin adhesive, Muslin cloth pouch, Silica gel crystals

Module 5: Process of packing and shipping floral arrangements

Mapped to AGR/N0709 v2.0

Terminal Outcomes:

- Demonstrate the process of packing floral arrangements.
- Describe the use of third-party delivery services for delivering floral arrangements.

Duration: 10:00	Duration: 20:00
<ul style="list-style-type: none"> • List various types of packing material suitable for a variety of floral arrangements. • Explain various ways of packaging practices to prevent damage and wilting of flowers during transit. • Explain the importance of maintaining the moisture content within limits to protect the packing material. • Describe the process of preparing and applying labels on the delivery packages. • Describe the process of using delivery services to deliver flowers to customers. • Explain the importance of adhering to the Turn-around Time (TAT) given to the customer for delivery. • Describe the process of using third-party delivery services. 	<ul style="list-style-type: none"> • Demonstrate the process of applying the relevant hydration solution on flowers, wedding bouquets, and wreaths while packing them to prevent wilting during transit. • Show how to gift wrap floral arrangement. • Prepare a sample label with the necessary information for package delivery. • Prepare a sample record of shipments using the relevant computer application.
Classroom Aids	
Training kit (Trainer guide, Presentations)	
Tools, Equipment and Other Requirements	
Needles of different size, Nylon thread, Cellophane paper, Card hard paper, Thread, Container/foam, Bamboo basket, Foam block, Wood shavings, Fine saw, Fixtures – single bar or split bar, Containers or vases – ceramic, stone, plastic glass, wooden, Earthen pots/ metallic containers, Desiccants – sand and silica gel, Plant press, Blotting/ newspaper sheets, Razor-blade, Flower cutter, Forceps, Thermocol	

Module 6: Hygiene and cleanliness

Mapped to NOS AGR/N9903 v3.0

Terminal Outcomes:

- Discuss how to adhere to personal hygiene practices.
- Demonstrate ways to ensure cleanliness around the workplace.

Duration: 03:00	Duration: 03:00
Theory – Key Learning Outcomes	Practical – Key Learning Outcomes
<ul style="list-style-type: none"> • Explain the requirements of personal health, hygiene and fitness at work. • Describe common health-related guidelines laid down by the organizations/ Government at the workplace. • Explain the importance of good housekeeping at the workplace. • Explain the importance of informing the designated authority on personal health issues related to injuries and infectious diseases. 	<ul style="list-style-type: none"> • Demonstrate personal hygiene practices to be followed at the workplace. • Demonstrate the correct way of washing hands using soap and water, and alcohol-based hand rubs. • Demonstrate the steps to follow to put on and take off a mask safely. • Show how to sanitize and disinfect one's work area regularly. • Demonstrate adherence to the workplace sanitization norms. • Show how to ensure cleanliness of the work area.
Classroom Aids:	
Computer, Projection Equipment, PowerPoint Presentation and software, Facilitator's Guide, Participant's Handbook.	
Tools, Equipment and Other Requirements	
Personal Protective Equipment, cleaning equipment and materials, sanitizer, soap, mask	

Module 7: Safety and emergency procedures

Mapped to NOS AGR/N9903 v3.0

Terminal Outcomes:

- Describe how to adhere to safety guidelines.
- Show how to administer appropriate emergency procedures.

Duration: 07:00	Duration: 17:00
Theory – Key Learning Outcomes	Practical – Key Learning Outcomes
<ul style="list-style-type: none"> • List the PPE required at the workplace. • Describe the commonly reported hazards at the workplace. • Describe the hazards caused due to chemicals/pesticides/fumigants. • Describe the basic safety checks to be done before the operation of any equipment/machinery. • Describe the common first aid procedures to be followed in case of emergencies. • State measures that can be taken to prevent accidents and damage s at the workplace. • Explain the importance of reporting details of first aid administered, to the reporting officer/doctor, in accordance with workplace procedures. • State common health and safety guidelines to be followed at the workplace. 	<ul style="list-style-type: none"> • Check various areas of the workplace for leakages, water-logging, pests, fire, etc. • Demonstrate how to safely use the PPE and implements as applicable to the workplace. • Display the correct way of donning, doffing and discarding PPE such as face masks, hand gloves, face shields, PPE suits, etc. • Sanitize the tools, equipment and machinery properly. • Demonstrate the safe disposal of waste. • Demonstrate procedures for dealing with accidents, fires and emergencies. • Demonstrate emergency procedures to the given workplace requirements. • Demonstrate the use of emergency equipment in accordance with manufacturers' specifications and workplace requirements. • Demonstrate the administration of first aid. • Prepare a list of relevant hotline/emergency numbers.
Classroom Aids:	
Computer, Projection Equipment, PowerPoint Presentation and software, Facilitator's Guide, Participant's Handbook.	
Tools, Equipment and Other Requirements	
Personal protective equipment, first aid kit, equipment used in medical emergencies.	

Module 8: Employability Skills (60 hours)

Mapped to NOS DGT/VSQ/N0102 v1.0

Duration: 60:00

Key Learning Outcomes

Introduction to Employability Skills Duration: 1.5 Hours

After completing this programme, participants will be able to:

1. Discuss the Employability Skills required for jobs in various industries
2. List different learning and employability related GOI and private portals and their usage

Constitutional values - Citizenship Duration: 1.5 Hours

3. Explain the constitutional values, including civic rights and duties, citizenship, responsibility towards society and personal values and ethics such as honesty, integrity, caring and respecting others that are required to become a responsible citizen
4. Show how to practice different environmentally sustainable practices.

Becoming a Professional in the 21st Century Duration: 2.5 Hours

5. Discuss importance of relevant 21st century skills.
6. Exhibit 21st century skills like Self-Awareness, Behavior Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn etc. in personal or professional life.
7. Describe the benefits of continuous learning.

Basic English Skills Duration: 10 Hours

8. Show how to use basic English sentences for everyday conversation in different contexts, in person and over the telephone
9. Read and interpret text written in basic English
10. Write a short note/paragraph / letter/e -mail using basic English

Career Development & Goal Setting Duration: 2 Hours

11. Create a career development plan with well-defined short- and long-term goals

Communication Skills Duration: 5 Hours

12. Demonstrate how to communicate effectively using verbal and nonverbal communication etiquette.
13. Explain the importance of active listening for effective communication
14. Discuss the significance of working collaboratively with others in a team

Diversity & Inclusion Duration: 2.5 Hours

15. Demonstrate how to behave, communicate, and conduct oneself appropriately with all genders and PwD
16. Discuss the significance of escalating sexual harassment issues as per POSH act.

Financial and Legal Literacy Duration: 5 Hours

17. Outline the importance of selecting the right financial institution, product, and service
18. Demonstrate how to carry out offline and online financial transactions, safely and securely
19. List the common components of salary and compute income, expenditure, taxes, investments etc.
20. Discuss the legal rights, laws, and aids

Essential Digital Skills Duration: 10 Hours

21. Describe the role of digital technology in today's life
22. Demonstrate how to operate digital devices and use the associated applications and features, safely and securely
23. Discuss the significance of displaying responsible online behavior while browsing, using various social media platforms, e-mails, etc., safely and securely
24. Create sample word documents, excel sheets and presentations using basic features
25. utilize virtual collaboration tools to work effectively

Entrepreneurship Duration: 7 Hours

26. Explain the types of entrepreneurship and enterprises
27. Discuss how to identify opportunities for potential business, sources of funding and associated financial and legal risks with its mitigation plan
28. Describe the 4Ps of Marketing-Product, Price, Place and Promotion and apply them as per requirement
29. Create a sample business plan, for the selected business opportunity

Customer Service Duration: 5 Hours

30. Describe the significance of analysing different types and needs of customers
31. Explain the significance of identifying customer needs and responding to them in a professional manner.
32. Discuss the significance of maintaining hygiene and dressing appropriately

Getting Ready for apprenticeship & Jobs Duration: 8 Hours

33. Create a professional Curriculum Vitae (CV)
34. Use various offline and online job search sources such as employment exchanges, recruitment agencies, and job portals respectively
35. Discuss the significance of maintaining hygiene and confidence during an interview
36. Perform a mock interview
37. List the steps for searching and registering for apprenticeship opportunities

Annexure

Trainer Requirements

Trainer Prerequisites						
Minimum Educational Qualification	Specialization	Relevant Industry Experience		Training Experience		Remarks
		Years	Specialization	Years	Specialization	
10th Class		5	Amenity Horticulture/ Floristry	0		Florist with 5 Years of experience after 10th pass. Experience certificate issued by BDO/ Agriculture Officer/ Head of Gram panchayat/ Loan disbursing bank or financial institution/ Corporates on official letter Head
12th class		4	Amenity Horticulture/ Floristry	0		Ex-Service-Man including Ex-Paramilitary personnel: Minimum Qualification is 10+2 with an Honourable Discharge/ Pension. SSC would consider a relaxation/ waiver of sector-specific experience on a case-to-case basis.
Diploma	Landscaping/ Agriculture/ Horticulture	3	Amenity Horticulture/ Floristry	0		
Graduate	In any stream	2	Amenity Horticulture/ Floristry	0		For the school program, the minimum qualification of the Trainer should be Graduate. Their Teaching experience will be considered industry experience
Graduate	Agriculture / Horticulture / Forestry	0.5	Amenity Horticulture/ Floristry	0		

Trainer Certification	
Domain Certification	Platform Certification
Certified for Job Role “ Florist ”, mapped to QP: “AGR/Q0703, v2.0”, Minimum accepted score is 80%	Recommended that the Trainer is certified for the Job Role: “Trainer (Vet and Skills)”, mapped to the Qualification Pack: “MEP/Q2601, v2.0”. The minimum accepted score as per MEPSC guidelines is 80%.

Assessor Requirements

Assessor Prerequisites						
Minimum Educational Qualification	Specialization	Relevant Industry Experience		Training/Assessment Experience		Remarks
		Years	Specialization	Years	Specialization	
Bsc	Horticulture/Botany/Forestry/Floriculture/Agriculture and related streams	5	Horticulture/Floriculture crop production and related industry experience	0		Practical skills and knowledge required in Floriculture practices
Msc	Horticulture/Botany/Forestry/Floriculture/Agriculture and related streams	2	Horticulture/Floriculture crop production and related industry experience	0		Practical skills and knowledge required in Floriculture practices
PhD	Horticulture/Botany/Forestry/Floriculture/Agriculture and related streams	1	Horticulture/Floriculture crop production and related industry experience	0		Practical skills and knowledge required in Floriculture practices

Assessor Certification	
Domain Certification	Platform Certification
<p>“Florist”, “AGR/Q0703, v2.0”, Minimum accepted score is 80%</p>	<p>Certified for the Job Role: “Assessor (Vet and Skills)”, mapped to the Qualification Pack: “MEP/Q2701, v2.0”, with a minimum score of 80%.</p>

Assessment Strategy

Assessment System Overview

In Agriculture Sector it is of ultimate importance that individuals dealing with crop production or livestock have the requisite knowledge and competencies to undertake the task. Based on the Assessment Criteria, SSC in association with empanelled AAs, define the test structure for the given job roles to cover the required skills and competencies. Assessment strategy consists of the following:

1. Multiple Choice Questions: To assess basic knowledge (Objective/Subjective)
2. Viva: To assess awareness on processes (Oral and/or written questioning)
3. Practical: To evaluate skills and identify competencies. (Observation)

Assessments for knowledge and awareness on processes may be conducted through 'real-time' internet-based evaluation or by conducting the same 'offline' through TABs. Skills and competencies are to be assessed by conducting 'practical' on the ground through qualified and ToA certified assessors.

While it is important that an individual has adequate knowledge and skills to perform a specific task, weightage for different aspects of assessment are given as follows:

- Multiple Choice Questions: 20%-30%, depending on the specific QP
- Viva: 20%
- Practical: 50% - 60% (Involves demonstrations of applications and presentations of procedures/tasks and other components)
- Assessment will be carried out by certified assessors through empanelled assessment partners. Based on the results of the assessment; ASCI will certify the learners/candidates

Testing Environment

Assessments are conducted on laptops, Mobiles and android tablets via both offline and online mode depending on the internet connectivity at the assessment location.

In remote locations/villages, assessments get delivered through tablets without the requirement of the Internet.

- Multilingual assessments (ASCI is conducting assessments in 13 + languages pan India)

- Rubric driven assessments in Practical/Viva sections and responses recorded accordingly
- All responses, data, records and feedback stored digitally on the cloud
- Advanced auto-proctoring features – photographs, time-stamp, geographic-tagging, toggle- screen/copy-paste disabled, etc.
- Android-based monitoring system
- End to end process from allocation of a batch to final result upload, there is no manual intervention
- Assessment will normally be fixed for a day after the end date of the training / within 7 days of completion of training.
- Assessment will be conducted at the training venue
- The room where assessment is conducted will be set with proper seating arrangements with enough space to curb copying or other unethical activities
- Question bank of theory and practical will be prepared by ASCI /assessment agency and approved ASCI. Only from approved Question Bank assessment agency will prepare the question paper. Theory testing will include multiple-choice questions, pictorial question, etc. which will test the trainee on his theoretical knowledge of the subject.
- The theory, practical and viva assessments will be carried out on the same day. In case of more number of candidates, the number of assessors and venue facilitation be increased and facilitated

Assessment			
Assessment Type	Formative or Summative	Strategies	Examples
Theory	Summative	MCQ/Written exam	Knowledge of facts related to the job role and functions. Understanding of principles and concepts related to the job role and functions
Practical	Summative	Structured tasks/Demonstration	Practical application /Demonstration /Application tasks
Viva	Summative	Questioning and Probing	Mock interviews on the usability of job roles/advantages /importance of adherence to procedures. Viva will be used to gauge trainee's confidence and correct knowledge in handling the job situation

The question paper pre-loaded in the computer /Tablet and it will be in the language as requested by the training partner.

Assessment Quality Assurance framework

Assessment Framework and Design:

Based on the Assessment Criteria, SSC in association with AAs will define the test structure for the given roles to cover the required skills and competencies. ASCI offer a bouquet of tools for multi-dimensional evaluation of candidates covering language, cognitive skills, behavioural traits and domain knowledge.

Theoretical Knowledge - Item constructs and types are determined by a theoretical understanding of the testing objectives and published research about the item-types and constructs that have shown statistical validity towards measuring the construct. Test item types that have been reported to be coachable are not included. Based on these, items are developed by domain experts. They are provided with comprehensive guidelines of testing objectives of each question and other quality measures.

Type – Questions based on Knowledge Required, Case-based practical scenario questions and automated simulation-based questions.

Practical Skills - The practical assessments are developed taking into consideration two aspects: what practical tasks is the candidate expected to perform on the job and what aspects of the job cannot be judged through theoretical assessments. The candidates shall be asked to perform either an entire task or a set of subtasks depending on the nature of the job role

Type – Standardized rubrics for evaluation against a set of tasks in a demo/practical task

Viva Voce - Those practical tasks which cannot be performed due to time or resource constraints are evaluated through the viva mode. Practical tasks are backed up with Viva for thorough assessment and complete evaluation

Type – Procedural questions, dos and don'ts, subjective questions to check the understanding of practical tasks.

The assessor has to go through an orientation program organized by the Assessment Agency. The training would give an overview to the assessors on the overall framework of QP evaluation. The assessor shall be given a NOS and PC level overview of each QP as applicable. The overall structure of assessment and objectivity of the marking scheme will be explained to them. The giving of marks will be driven by an objective framework that will maintain the standardization of the marking scheme.

Type of Evidence and Evidence Gathering Protocol:

During the assessment the evidence collected by AAs and ASCI are:

- Geo Tagging to track ongoing assessment
- AA's coordinator emails the list of documents and evidence (photos and videos) to the assessor one day before the assessment. The list is mentioned below:
 - Signed Attendance sheet
 - Assessor feedback sheet
 - Candidate feedback sheet
 - Assessment checklist for assessor
 - Candidate Aadhar/ID card verification
 - Pictures of the classroom, labs to check the availability of adequate equipment's and tool to conduct the training and assessment
 - Pictures and videos of Assessment, training feedback and infrastructure.
- Apart from the Assessor, a Technical assistant popularly known as Proctor also ensures the proper documentation and they verify each other's tasks.
- To validate their work on the day of the assessment, regular calls and video calls are done.
- On-boarding and training of assessor and proctor is done on a timely basis to ensure that the quality of the assessment should be maintained.
- Training covers the understanding of QP, NSQF level, NOS and assessment structure

Methods of Validation

- Morning Check (Pre-Assessment): Backend team of AA calls and confirms assessor/technical SPOC event status. Assessor/Technical SPOC are instructed to reach the centre on time by 9:30 AM / as decided with TC and delay should be highlighted to the Training Partner in advance.
- Video Calls: Random video calls are made to the technical SPOC/assessor so as to keep a check on assessment quality and ensure assessment is carried out in a fair and transparent manner
- Aadhar verification of candidates

- **Evening Check (Post Assessment):** Calls are made to the ground team to ensure the event is over by what time and the documentation is done properly or not.
- **TP Calling:** To keep a check on malpractices, an independent audit team calls the TP on a recorded line to take confirmation if there was any malpractice activity observed in the assessment on part of the AA/SSC team. If calls are not connected, an email is sent to TP SPOC for taking their confirmation
- **Video and Picture Evidence:** Backend team collects video and pictures for assessment on a real-time basis and highlights any issue such as students sitting idle/ trainer helping the candidates during the assessment.
- **Surprise Visit:** Time to time SSC/AA Audit team can visit the assessment location and conduct a surprise audit for the assessment carried out by the ground team.

- **Geo Tagging:** On the day of the assessment, each technical SPOC is required to login into our internal app which is Geotagged. Any deviation with the centre address needs to be highlighted to the assessment team on a real-time basis.

Method for assessment documentation, archiving, and Access:

- ASCI has a fully automated result generation process in association with multiple AAs
- Theory, Practical and Viva marks form the basis of the results and encrypted files generated to avoid data manipulation. All responses are captured and stored in the System with Time-Stamps at the end of AAs and SSC. NOS-wise and PC-wise scores can be generated.
- Maker Checker concept: One person prepares the results and another audit result which is internally approved by AA at first and then gets vetted at the end of SSC
- All softcopies of documents are received from the on-ground tech team over email. The same are downloaded by our internal backend team and saved in Repository. The repository consists of scheme-wise folders. These scheme-wise folders have job role specific folders. These specific folders have Year wise and Month wise folders where all documents are saved in Batch specific folders. All Hard copies are filed and stored in the storeroom.

Result Review & Recheck Mechanism –

- Time-stamped assessment logs
- Answer/Endorsement sheets for each candidate
- Attendance Sheet
- Feedback Forms: Assessor feedback form, Candidate feedback form, TP feedback form
- The results for each of the candidate shall be stored and available for review (retained for 5 years/ till the conclusion of the project or scheme)
